**Black History Month** is an annually observed commemorative month originating in the United States, where it is also known as African American History Month. Since 1976, every American president has designated February as Black History Month and endorsed a specific theme. The Black History Month 2025 theme, "[African Americans and Labor](#)," focuses on the various and profound ways that work and working of all kinds – free and unfree, skilled, and unskilled, vocational and voluntary – intersect with the collective experiences of Black people.. Learn more here: [Black History Month 2025: Facts, Origins & Quotes | HISTORY](#). Black History Month is celebrated in February in the United States and Canada and has more recently been celebrated in Ireland and the United Kingdom where it is observed in October.

**Black History Fact:** [Alice Ball](#) invented the first successful treatment for Hansen's disease (otherwise known as leprosy) in 1916. Ball was also the first African American and first woman to graduate with a master's degree from the University of Hawaii.
