

Women's Specialty Services

FOR WOMEN, WOMEN WITH CHILDREN & PREGNANT WOMEN

Sacred Heart Rehabilitation Center is dedicated to assisting all people with behavioral health issues, including those with limited means, to improve their quality of life.

Sacred Heart is the largest women's specialty substance use disorder provider in the state of Michigan. Sacred Heart offers women's specialty services in both inpatient and outpatient settings.

WHAT ARE WOMEN'S SPECIALTY SERVICES?

Sacred Heart women's specialty services utilize a combination of best practices and evidenced based therapeutic techniques at all levels of care. Treatment services including specialized medical care; family, parenting and child care; health and wellness classes; and a variety of additional services tailored to meet the needs of women are utilized during the course of substance abuse treatment with Sacred Heart.

RESIDENTIAL

Our Sacred Heart Clearview residential program offers women's specific services in a safe, comfortable all-female service environment which is free from the distractions of a co-ed facility. Our Clearview woman's specialty program is truly unique, we are able to exclusively provide services to women, women who are pregnant and women who are in need of bringing their children into treatment with them.

Clearview offers both short and long term residential treatment. Connected with our Clearview program is a number of independent living apartments and a recovery home in St. Clair County.

OUTPATIENT

Women specialty outpatient services offer a therapeutic program to address the specific issues of women in recovery. Women will experience dealing with everyday tasks such as daily living skills, parenting, problem solving, conflict resolution and

budgeting in a safe and supportive learning environment.

WHO QUALIFIES FOR THESE SERVICES?

Women with any/all of the following issues:

- Pregnant with Injecting Drug Use
- Pregnant
- Children's Protective Service Involvement
- Injecting Drug Use - Pregnant or with Dependent Children
- All dependent children of women with Substance Use Disorder problems severe enough to warrant treatment are potentially at risk and therefore these women are able to utilize Women's Specialty Services.

PRIORITY ACCESS TO TREATMENT

Women who are pregnant, or women with parental rights to their children are placed on a priority list for admission to treatment services. These treatment services are provided through state and federal funds. Women who are enrolled in Medicaid are considered a priority for admission to treatment services, and are immediately admitted to treatment. Parents who are involved with Children's Protective Services, or whose children are in foster care or placement with relatives, are also eligible for services.
